ENCLOSURE(1)

MISSION

To direct and manage the activities of the Naval Intelligence Command to ensure the fulfillment of the intelligence requirements and responsibilities of the Department of the Navy; and to perform such other functions and tasks as may be directed by higher authority.

FUNCTIONS

1. Commands the Headquarters, Naval Intelligence Command, and assigned shore activities.

1. Directs and coordinates intelligence collection, production, dissemination, and other activities necessary to satisfy the requirements of the Department of the Navy, operating forces and commands, the Research and Development community, the Department of Defense, the Defense Intelligence Agency, and National Command Authorities.

3. Supports overt fleet intelligence collection planning, implementation and evaluation, and provides time-sensitive collection guidance, specialized equipment, and qualified personnel assistance.

4. Manages collection of information from human and other open sources directly accessible to Navy collectors.

5. Ensures that Navy information requirements are introduced into the Intelligence Community collection requirements mechanism and monitors their fulfillment.

6. Promotes and effects Naval Intelligence cooperative and exchange programs with foreign navies, and approves intelligence releases to foreign governments, national and international organizations.

7. Represents the Navy in the selection, training, support and evaluation of naval personnel assigned to the Defense Attache System.

8. Determines financial, manpower, and training requirements to meet the intelligence needs of the Navy.

9. Justifies and defends budget and related submissions to higher authority and other intelligence organizations/entities.

10. Executes the budget as a major claimant, and ensures that strict financial accountability is maintained.

11. Participates in Navy planning related to military and civilian intelligence personnel career development and training, and serves as designator advisor for intelligence officer designators and as technical advisor for the enlisted IS rating.

12. Develops plans and programs for the management and utilization of the Naval Intelligence Reserve, and acts as primary point of contact for liaison with the active commands.

13. Provides staff assistance to the Chief of Naval Operations on matters pertaining to intelligence research and development policy. Determines requirements, develops, plans, and monitors the procurement for research and development, test, and evaluation of new and improved intelligence collection, analysis, and processing equipment and techniques.

14. Manages Naval Intelligence Automated Data Processing and special intelligence communications systems.

15. Acts as the Navy Special Security Officer and provides Navy-wide management of Special Security Officer/Special Activities Officer Programs and other national and Navy compartmented programs.

16. Directs the Command Inspection Program and monitors oversight of command intelligence activities in accordance with appropriate directives.

COMMAND HISTORY
CY 1988

Jan-Oct: Transfer of NIC-04 divisions to NIAC-07.

Jan-Dec: Several minor organizational changes were implemented in NIC-42/NIAC-72, primarily through loss of GS-080-12 (Deputy Director) position, and the reclassification of that billet to a Physical Security Specialist to manage the 35 Pentagon SCIFs as a GS-080-9.

NIC-42/NIAC-72 staff members held ten Intelligence Liaison Officer (ILO)/SCI Administrative Officer (ADMINO) Training Sessions.

Issued ten Physical Security Awareness Notices (PSANS) on the latest physical security SCI Information to the Pentagon SCIF Control Officers under control of NIC-42/ NIAC-72.

Six Security Education Awareness Notices (SEANS) were issued to all Navy Pentagon SCI-cleared personnel regarding SSO Introductory Course availability, chops required for SCI messages, SCI NDA definition of the term "classifiable", Espionage (2 SEANS), and Need-to-Know.

Continued extensive coordination with NIAC personnel regarding further development of the NIC-42/NIAC-72 SCI Registry Accountability Systems (SRARS). It is hoped that the system will be available during first quarter CY89 for testing and program enhancement features with anticipated full system implementation by CY90.

NIC-42/NIAC-72 completed all necessary ADP actions regarding billet/personnel conversions (Navy-wide) for billets, Pentagon sponsored for personnel for EL program which replaced a former SCI program.

NIC-42/NIAC-72 completed all necessary ADP actions regarding billet/personnel conversions (Navy-wide) for mass termination of VER Program and close-out of all Navy facilities.

Jan: Transfer of the NIC-44/NIAC-74 intelligence library to the various Systems Commands and significant reduction in SCI holdings due to change in primary mission responsibilities.

NIC-42/NIAC-72 coordinated and implemented briefing process with NISCOM representatives for Counterintelligence Security Polygraphs (CSP) for 98 randomly selected personnel. Two personnel volunteered to take the CSP.

Continued coordinating design input for the new NIC building as it progressed to 35% design at the Anacostia Naval Station site.

Commander Charles Cushman attended the Latin American Conference in Panama. He also visited the Defense Attache Offices in Venezuela and Colombia to discuss Naval Attache/Enlisted support issues with Navy personnel in these countries and to meet with various embassy staff to advise them of the Navy's continuing strong support of the Defense Attache System.

Held COMNAVINTCOM/CO's POM 90/91 ranking session as first step in converting Five-Year Plans to General Defense Intelligence Proposed Program (GDIPP).

Continued execution of FY 1988 claimant funds, entering second quarter. FY88 Financial Plan and obligations for the first quarter follows:

O&MN:	SH:1530	Plan	$46,765,000	Obligated	$30,395,452
O&MN:	SH:123A	Plan	$ 358,000	Obligated	$ 200,000
OPN:	N7YG	Plan	$ 4,000,000	Obligated	$ 2,999,000

[redacted]

Jan 1: NIC-13 established the Direct Commission Board to select individuals into the Naval Reserve Intelligence Program as intelligence officers. Conduct/selection procedures of the Board parallel those of selection boards convened for promotions and other Navy programs.

Jan 4: Provided ADP security guidance for the Joint Maritime Information Element (JMIE) Support System for the test bed located at Governor's Island, New York. Continued to provide computer security support throughout the year.

Jan 12: NTIC message create and release capability became operational as a sub-system to the Wang Replacement Increment (WRI).

Jan 12-Jan 13: NIC-01, NIC-01B, NIC-12, NIC-122, and NIC-13 attended the first Naval Intelligence Training Council Meeting at the Pentagon.

Jan 14: Commenced Phase 1 development of Joint National Intelligence Development Staff (JNIDS) Project III, Mobile ICBM Analysis in support of SAC/544th SIW.

Interim Front End Filter (IFEF) interface to [redacted] III (SWIII) became operational.

Jan 28: NIC-13 briefed the Naval Reserve Air Site and Recruiting Region Officer Programs Officers at the Naval Surface Weapons Center, White Oak Laboratory, Silver Springs, MD on the Reserve Intelligence Program.

Feb: Forwarded NAVINTCOM's FY 1989 Congressional Budget Justification Book (CBJB) submission to CNO (OP-092R).

LCDR Cox participated in joint Navy GDIP ranking session at Tyson's Corner, Virginia. Other participants included CNO representatives (OP-092R), Mr. Harman, Ms. Swift, and NAVINTCOM Commanding Officers and their Financial Managers.

Civilianized 11 military manpower billets in NAVINTCOM's FY 1990-91 GDIPP initiatives in recognition of extreme difficulty in filling military billets.

Navy Federal Credit Union moved from NIC-II building into rehabilitated space on the first floor of NIC-I building completing a five year effort for this evolution.

Submitted the FY 1988/1989 Amended President's Budget to NAVCOMPT, matching GDIP request in CBJB. The budget request for FY89 contained $133,917,000 of O&MN SH 1530 (personnel expenses covered civilian end strength of 1,375 plus 8 indirect hire foreign nationals); $1,703,000 for O&MN SH.123A, $58,375,000 for OPN; and $58,952,000 for MILCON (first phase funding for new building, balance of $52,175,000 to follow in FY91).

[redacted]

Feb 4: Sponsored Black History Month Kick-off. Speaker was Ms. Carol Randolph, former host of Harambee Show and her own show on Channel 9, TV; currently a columnist for the "Washington Times."

Feb 10: SG-84 cryptographic equipment was shipped to COMNAVFOR-JAPAN to upgrade CLUSTER CASE circuits.

Feb 16: FIST/IDEX interface control document delivered SPAWAR.

Feb 17: Sponsored Annual Black History Luncheon. Speaker was Mr. Jim Vance, Anchor on the 6 p.m. news, Channel 4.

REPRODUCED AT GOVERNMENT EXPENSE

Upgrade to Anti-terrorist Alert Center gateway in support of NSIC became operational.

Feb 20: Completed preventive maintenance of the fire alarm system in NIC-I ADP and Comm Centers.

Feb 22: The 35% design was completed for the Anacostia Naval Station site.

Feb 23: Congressman Hoyer of Maryland's 5th District arranged for NIC, GSA, and NAVFAC to discuss possible relocation of the NIC building project to property on the Suitland. The building would be Navy's and the property would be transferred to the Navy.

Feb 23-Feb 27: NIC-13 participated in the IPAC Reserve Support Conference and provided assistance to IPAC and other local commands on Intelligence Reserve issues. Additionally, briefed participants on NIC-13's responsibilities as Technical Manager of the Naval Reserve Intelligence Program.

Feb 26: Initial capability for scenario reconstruction provided to NAVOPINTCEN with installation of JNIDS Project I, Maritime Analysis and Reconstruction Aide (MARA).

NIC-122 participated in the "Murder" Board Review for the new Navy Occupational Task Analysis Program (NOTAP) Survey for Intelligence Specialists (IS's).

Feb-Jul: Extensive coordination with NESEC SDIEGO was conducted by NIC-43/NIAC-73 in order to develop appropriate security procedures for the Soviet inspection of NESEC SDIEGO SCIF as part of the INF Treaty between the U.S. and the USSR. The facility was inspected by the Soviets in July with no reported compromise or inadvertent disclosure of SCI resulting.

Mar: NIC-04 and NIC-42/NIAC-71 visited the Washington Convention Center to preview demonstration on Optical Scan equipment which will computerize the microfilm section of NIC-41/NIAC-71.

Verbally informed by CNO (OP-092P) that NISC's Production Enhancement Initiative (PEI) submission of 7 Jul 1987, Soviet Electronics Acquisition Exploitation, was selected by the Intelligence Producers Council (IPC) for funding.

Forwarded NAVINTCOM's FY 1990-91 GDIP submission to CNO (OP-092R).

NAVINTCOM furnished $100,000 tow[redacted] security fence to be constructed around the perimeter of the Suitland Federal Center. Fence was completed in December.

NIC-24 began planning assignments of floor space becoming available on second and third floors of NIC-I when the Naval Security and Investigative Command (now) NISCOM) moves to Navy Yard. Planning continued for remainder of calendar year. A total of 40,839 square feet will be available.

Submitted FY88 mid-year review deficiencies to NAVCOMPT totaling $2,522,000: PAWS Maintenance $130,000; DACOM I $105,000; Naval Intelligence Top Level Warfare Requirements (TLWR) $85,000; DNI Office Security $75,000; Tuba I $400,000; Format Collection $86,000; Tuba II $400,000; DACOM II $560,000; and OCTOPUS $681,000. NAVCOMPT approved only $235,000: $130,000 for PAWS Maintenance and $105,000 for DACOM I.

Mar 1: The position of Assistant Commander for Manpower, Personnel, Training and Administration Department (NIC-01) was created.

NIC-13 initiated selection board concept for change of designator and in-training status requests. The board consists of NIC-13, the TAR intelligence detailer and NMPC-912 in the Naval Military Personnel Command. The board reviews each individual's microfiche record to determine their potential for success in the Naval Reserve Intelligence Program.

Mar 3: Implemented monthly procedure to forecast yearly spare part expenditures for hardware maintenance using linear regression techniques.

Mar 4: The NAVINTCOM Sailor of the Year Selection Board met to consider and interview the following candidates for SOY:

YN1 M. D. Davis	NAVINTCOMHQs
IS2 C. L. Webster	NOIC
CTO2 D. Vandriesen	NIAC
PH3 J. T. Deneault	NTIC

IS2 Christopher L. Webster was selected the NAVINTCOM Sailor of the Year.

Implemented monthly collection of specific performance statistics for the IBM and VAX mainframes. Linear

regression techniques to be used for planning and monitoring.

Mar 7: Congressman Hoyer of Maryland's 5th District petitioned the House Subcommittee on Military Installations and Facilities by letter to revise the Navy request for the new NIC building and authorize the facility at the Suitland Federal Center providing for a no-cost transfer of the necessary land from GSA to Navy.

Mar 7-15: Installed, tested, and accredited DART output software at FOISC WESTPAC, Kami Seya, Japan. The Ocean Surveillance Information System (OSIS) site commenced transmitting automated event-by-event air reports to fleet users via Streamliner.

Mar 8: Australian Director of Naval Intelligence (DNI) Captain I.E. Pfennigwerth visited NIC-03/CTF-168.

Briefed Australian DNI on NIAC role in Ocean Surveillance Information System (OSIS) Baseline Upgrade (OBU).

Mar 9: Sponsored Women's History Month Kick-off. Speaker was Mrs. Dorothy Fauntroy, former host of Afternoon Devotions, a radio show on station WUST.

Mar 10: Sponsored Women's History Month Program. Speakers were Ms. Roberta McKay, Department of Labor, Women's Bureau (Workforce 2000 & Women Issues) and Mr. Hugh Baumgardner, Deputy Assistant Commander for Manpower, Personnel & Training (Legal Assistance).

Prospective FRG DNI visited NIC-03/CTF-168, NAVOPINTCEN, NAVTECHINTCEN, and the Navy Foreign Material Program Facility at Chesapeake Beach, MD.

Mar 16: Initiated PC Homestudy lend-out program using IBM compatible Leading Edge PC's for increased computer literacy.

Mar 17: Sponsored Women's History Month Workshop on "Upward Mobility and Career Enhancement."

Installed the Submarine entity enhancement in the Characteristics and Performance Data Base (CPDB).

Mar 18: Commodore James B. O'Reilly, Canadian DNI, visited NIC-03/CTF-168.

Mar 23: Sponsored Women's History Month Workshop on "How to Prepare Your SF-171."

Mar 23-: NIC-01 and NIC-12 attended the Intelligence Schools
Mar 24 Commanders' Conference and General Intelligence Training Council Meeting at Goodfellow AFB, TX.

Mar 25: Sponsored Women's History Month Luncheon. Guest Speaker was Ms. Dorothy Nelms, Attorney, Washington, DC.

A scheduled triennial Command Inspection of the New York and Norfolk units of the Task Force 168 Atlantic elements was completed with a grade of Satisfactory.

Mar 30: Activated new SPINTCOMM, FLTDECGRUPAC Coronado, CA as STREAMLINER remote on FIREBOAT terminals.

Apr: Memorandum of Agreement issued between NISCOM and NIC-04 for notification of ongoing investigations for those individuals who have Special Background Investigations (SBI).

NIC-41/NIAC-71 critiqued the new SCI Control Officers course at DIA/DIC; the course is very beneficial to SSO's worldwide and provides unique essential training that will ultimately upgrade significant individual SSO capabilities.

NAVFAC, with NAVINTCOM concurrence, redirects the building design effort to Suitland site.

The new building budget request passed the mark of the House Armed Services - Subcommittee on Military Installations and Facilities (HASC) at the Suitland site.

Forwarded three outlines to OP-092R for topics to be discusssed by NTIC at the FY90-94 GDIP-CCP crosswalk. Topics included: CTT Civilianization, WRANGLER Connectivity, and Wideband Recorder.

Resubmitted the NAVOPINTCEN PEI nomination, Dynamic Correlation Model of the Soviet Navy Versus Various Threats to OP-092P.

S&T Functional Manager's Review of NTIC's FY90-94 program. The focal point of the briefing centered on foreign material exploitation backlogs. As a result of this review, NAVINTCOM received functional managers support for additional FME initiatives in the program.

Two new Foreign Material Exploitation initiatives (2.7 million) were approved by GDIP program manager for addition to FY 1990 program.

IC staff base review of NIAC (TCOMM, IDHS, IAIPS), NICHQ. As a result of this review, both GDIP and IC Staff representatives committed to approving security force billets at the Naval Intelligence Center.

Forwarded supplemental questions concerning NIAC base resources to the IC staff. Questions concerned specific appropriations in base of Expenditure Units 334, 335, and 338.

[redacted]

Apr 1: The Integrated Automated Intelligence Processing System (IAIPS) Contract development work came to a conclusion.

Apr 6: NWTDB changed from a "baseline" into an operational system. A revised NWTDB User's Guide was published and disseminated.

Apr 9: Message Processing Dissemination System (MPDS) mag tape interface to SEABASS became operational.

Apr 17-Apr 22: South Korean DNI visited the Naval Observatory, COMNAVINTCOM, CTF-168, NAVTECHINTCEN, NAVOPINTCEN, the U.S. Director of Naval Intelligence (RADM Studeman), RADM Brooks (DIA/JS), the National Oceanic and Atmospheric Administration, and RADM Sheafer (CINCLANT J-2).

Apr 18-Apr 21: EEO Specialist attended the Special Emphasis Program Managers Conference in Cherry Hill, NJ, which provided updates on policies, guidelines in EEO/AAPs, and discussed the role of the Special Emphasis Program Managers.

Apr 20: Completed reconfiguration of the SCI ADP center for better safety and functional utilization.

Apr 22: Rear Admiral Dale N. Hagen, USN was relieved of command by Captain William H. Cracknell, USN.

Apr 29: JNIDS Oversight Board voted to continue JNIDS and approved new funding plan whereby U.S. Navy restores base program, and DIA and the Services provide fair share funding for project development.

Apr 30-6 May: ISS/AF Phase Zero installed at FOSIF Rota. Phase Zero consisted for a stand alone FDB+ system and a stand alone FULCRUM. Full system installation awaits successful completion of the system accreditation test by DIA.

May: NIC-43/NIAC-73 developed, throug[redacted] Intelligence Community, appropriate security policy guidance for the use of Security Terminal Unit (STU-III) within Navy SCIF's.

Two-week ACDUTRA for the NICSEC 0166 Reserve Unit reduced the NIC-41/NIAC-71 backlog for SBI-PRs by 48%.

The architect-engineer firm began a comparative design process of 1) site adapting the Anacostia design on the Suitland site or 2) developing a new site specifically designed for Suitland.

Prepared and forwarded HPSCI appeals:
-- Navy Civilian Intel Personnel -11
-- Navy Intel Production -$3004k

Physical space occupied by NIC-I mailroom was upgraded for better service to customers.

[redacted]

May 10: Assisted Navy TEMPEST engineers in conducting Instrumented TEMPEST Surveys (ITS's) on numerous NAVINTCOM ADP systems processing SCI.

May 13-: NIC-13 attended the first Reserve Commanders' Con-
May 15 ference at the Defense Intelligence Agency in support of DIA's Directorate for Foreign Intelligence.

May 15: Commenced first Phase development (Functional Analysis) for JNIDS Project IV (Korean I&W) in support of analysts at USFORCESKOR.

May 17-: EEO conducted Prevention of Sexual Harassment train-
May 19 ing for NOIC managers.

May 24-: NIC-01 and NIC-11 attended Manpower Claimant
May 25 Efficiency Review (ER) Conference in Norfolk, VA. Received program overview and aspects of what an ER accomplishes if done properly.

May 31: Completed IAIPS contract close out with respect to licenses, government equipment, furniture and deliverables.

May 31-: Malaysian DNI visited COMNAVINTCOM, CTF-168, NAVTECHINT-
Jun 3 CEN, and NAVOPINTCEN.

Jun: Submission of comparative designs for the new building were received for government review.

Environmental Assessment of Suit [redacted] engineering contract with Chesapeake Division, NAVFAC.

LT Sheppard, USNR, assigned to NIC-02/NIC-21 for ACDUTRA, prepared a report on the analysis of the average annual expenditures--Naval Intelligence Command vs Major Corporations.

Prepared and forwarded six HAC appeals:

-- SEAWATCH Replacement Terminals	-1.100 mil
-- Intelligence Production Operating Expenses	- .766
-- Intelligence Production Civilian Pay	- .200
-- Navy S&T Civilian Pay	- .841
-- Navy S&T Operating Expenses	- .603
-- Navy RDT&E - Intel Prod	-3.004

Submitted the FY 1990/1991 NAVCOMPT Biennial Budget. It contained:

FY 1990:	
O&MN SH 1530	$164,718,000
O&MN SH 123A	1,750,000
OPN	76,277,000
CIVPERS DHUS end strength	1,432
FY 1991:	
O&MN SH 1530	152,856,000
O&MN SH 123A	1,788,000
OPN	63,969,000
MILCON (2nd phase)	52,175,000
CIVPERS DHUS end strength	1,467

For O&MN SH:1530, in FY89, we will begin executing dollars for EU380 HUMINT Support Detachment for the Marines with a program of $240,000.

Navy offsite at Annapolis, MD with PAC, LANT, SECGRU, NIC and component commands were in attendance. Attendees reviewed Navy's draft manual on CIPMS. Agreed on Navy's position on CTO target grades, occupational guides and class standards. Conclusion from offsite is that Navy is ready to initiate implementation pending approval of the OSD instruction. Delays implementing were at the OSD level.

Jun 1: Prepared and submitted NAVINTCOM's five-year Affirmative Employment Program Plan.

CWO2 Raymond W. Rugen, USN detached as Aide/Flag Secretary.

Deactivated and deinstalled NAVSTA [redacted] SPINTCOMM. Redistributed CT personnel to other SPINTCOMM sites.

Jun 6: JNIDS Project III initial prototype delivered to SAC/544th SIW after six months of software development.

Jun 14: NIC-13 provided a presentation to senior officers on Reserve Intelligence issues at the annual MG-1 Course sponsored by the Commander, Naval Reserve Intelligence Command.

Jun 20-Jun 29: ISS/AF Phase Zero - FOSIC London, UK. Phase Zero consisted of a stand alone FDB+ system and a stand alone FULCRUM. Full system installation awaits successful completion of the system accreditation test by DIA.

Jun 29-Jun 30: Sponsored service wide team meeting to outline current Tactical DODIIS development efforts and solicit requirements to complete TA/CE.

Jul: NAVINTCOM and NAVFAC decided to proceed with specifically designed building at Suitland site.

Commander Charles W. Cushman, Jr., (NIC-OON) departed COMNAVINTCOM for duty in Stuttgart, Germany.

Successfully transferred computer data files via secure STU-III to OP-092R in the Pentagon. Following the successful test of this computer-to-computer link, this path was terminated due to security concerns.

Submitted recommendations to OP-920 for Anti-Drug initiatives. Initiatives included enhanced collection management for anti-narcotics intelligence, JNIDS anti-narcotics technology migration, mobile communications systems for use against narcotics smuggling, and a anti-narcotics development department at NAVOPINTCEN.

Submitted recommendations for initiatives to support INF monitoring to OP-920. Significant initiatives included: the Naval Arms Control Monitoring Office and NAVOPINTCEN, JNIDS INF workstation development, a cadre of INF verification personnel attached to Headquarters, and a HELGA system for INF NUCINT monitoring.

Acoustical magnetic tapes stored by NTIC at Wolfe Building, Silver Spring (formerly in Building 200, Washington Navy Yard), were moved to permanent storage to Federal Records Center, Suitland (move completed in September).

(8) Commenced production of a VCR based Mini Acoustic Recording System.

Jul 5: Reactivated CG 3 MAW, El Toro, CA SPINTCOMM into new MILCON spaces/building with all new equipment, FIREBOAT terminals and upgraded circuit line speed.

Jul 15: A scheduled triennial Command Inspection of the Miami and Panama units of the Task Force 168 Atlantic elements was completed with a grade of Satisfactory.

LCDR Robert A. Haines reported for additional duty as Chaplain for NAVINTCOM and component commands.

Jul 16: Completed hardware configuration of a backup NIAFE communications system.

Jul 18-: 2 Sep NIC-111 was temporarily assigned to the Office of Naval Intelligence as the Intelligence Manpower and Training Officer (OP-92C2).

Jul 20: Installed the Naval GDIP Resource Management System (NGRMS) to OP-920 which facilitated management of resources between Suitland and the Pentagon.

Jul 26: Compiled/submitted for DIA/DCA validation User Requirements Data Base (URDB) for worldwide SPINTCOM connectivity to the Defense Data Network (DDN).

Jul 26-: Jul 30 EEO Specialist attended the Federally Employed Women's National Training Program in Baltimore, MD, receiving updated information on legislature on EEO and strategies to increase the participation of women in the civilian work force.

Jul 27: Initiated operational testing of the NIAFE communications system to include a preliminary security test and evaluation. System to remain online as long as possible.

Jul 27-: Jul 29 NIC-13 and NIC-113 attended the Director, Naval Reserve Intelligence Program (DNRIP) Training and Advisory Board (TAB) at the Navy and Marine Corps Intelligence Training Center, Dam Neck, VA to receive update and guidance on program direction and goals.

Aug: NIC-41/NIAC-71 performed an Admin Security inspection of CINCLANTFLT and subordinate commands; result was a grade of outstanding for the Headquarters and subordinate commands.

Responsibility for U.S. Naval Attache Affairs transferred from COMNAVINTCOM (NIC-00N) to CNO (OP-092L).

Developed and promulgated the NA[redacted] Security Officer (TASO) Program Instruction to monitor PC terminals.

Aug 1: The Collection Advisory Center and Collection Guidance and Requirements Departments were combined to form the Collection Strategy Department. This centralization of all NIC-03 collection management functions into one department allowed creation of a new department, Fleet Operations, and the establishment of a Collection Targeting Cell within the Collection Strategy Department.

Activated new SPINTCOMM, MAWTS-1, Yuma, AZ as STREAMLINER remote on FIREBOAT terminals.

Aug 15: NIC-13 realigned enlisted IS billets for the Fleet Intelligence Centers to enhance overall unit readiness.

Naval message transmission capability became operational from Chesapeake Beach to NTIC-03 for final release via the WRI.

Aug 15-: ISS/AF installed at FICPAC.
Aug 19

Aug 17: LCDR Kevin R. Vienna, JAGC, USN reported as Staff Judge Advocate.

Aug 19: Captain Frederick W. Levin, USN came on board as Deputy Commander, NAVINTCOM.

Aug 22: Reactivated COMPMTC, Pt Mugu, CA SPINTCOMM into new MILCON spaces/building with all new equipment, including FIREBOAT terminals.

Aug 29-: NIC-102 visited Atlantic Fleet commands to provide
Sep 1 guidance on current intelligence dissemination policy and procedures.

Sep: NIC-04/NIAC-07 requested NIAC-06 dedicate $12k for the DCII terminal lines in the NIC-I building in anticipation of the NISCOM move to the Washington Navy Yard.

Budget request for the new building passed all congressional marks and was contained within the budget acts which President Reagan signed. These acts provided full authorization for the project of $114M with an FY89 appropriation of $58.952M. The balance will be appropriated in FY91.

Discussions held with USCG personnel about possible relocation of USCG Intelligence Coordination Center into the new NAVINTCOM facility.

Program for the Environmental and Moral Leave (EML, for Navy personnel serving in the Defense Attache System will be funded for the third year by COMNAVINTCOM.

LCDRs Cox and Chapman presented a financial management briefing at the Mid-Career Officers course at the Navy and Marine Intelligence Training Center (NMITC), Dam Neck, VA. This course is of highest interest to the Director of Naval Intelligence.

Submitted FY 1990/1991 OSD Biennial Budget. It contained:

FY 90:	
O&MN SH 1530	$154,494,000
O&MN SH 123A	1,910,000
FY 90:	
OPN	78,655,000
CIVPERS DHUS end strength	1,432
FY 91:	
O&MN SH 1530	156,446,000
O&MN SH 123A	1,859,000
OPN	53,656,000
MILCON (2nd phase)	52,175,000
CIVPERS DHUS end strength	1,467

Completed execution FY 1988 claimant O&MN funds.

[redacted]

Sep 3-5: NIC-111 served on the JCS Manpower Survey Team which reviewed manpower requirements of USCINCLANT, LANTDAC, and Cruise Missile Facility. The Team met at the Pentagon and also on-site in Norfolk, VA.

Sep 7: Captain John S. Oates, USN replaced Captain James E. Ripple, USN as Director, JNIDS.

SDF3 operational as a GENSER SECRET system high processor. Several large databases were moved from the overloaded GAPS to SDF3.

Sep 9: NIC-01 and NIC-12 briefed the Director of Naval Intelligence on a proposed Professional Development program for

Intelligence Officers (1630) comprised of graduate education, training courses, and correspondence courses.

Granted interim approval to operate the DSAT computer system, SWIII, phase one, application on the IBM 3090, and the DUET computer systems. All systems should receive accreditation at the end of their development phase.

Sep 10: Reactivated CNFK CHINHAE Det Korea SPINTCOMM after move into new refurbished spaces, upgraded all equipment and terminal equipment to FIREBOATS, upgraded line speed to 1200bps and reterminated from Kami Seya to AF STREAMLINE at Osan, Korea.

Sep 13: Reactivated CG FIRST MARDIV, Camp Pendleton SPINTCOM into new MILCON spaces/building with all new equipment, FIREBOATS and upgraded line speed.

Sep 14: Sponsored Hispanic Heritage Week Celebration. Paco and Company presented a program of Hispanic dancing. There was also a potluck Hispanic food sampling.

Completed conversion of Sensitive Compartmented Information Facility (SCIF) application from IDMS to Model-204.

Sep 15: Retirement ceremony held for ISCM Lloyd E. Fish, USN, Command Master Chief, Naval Intelligence Command.

Sep 15-Sep 30: NIC-03F accompanied CTF-168 on WESTPAC trip to TF-168 field units and foreign countries with whom USN has a cooperative intelligence exchange program.

Sep 18: Interim Front End Filter journaling capability, in support of message recovery for IFEF and SWII, became operational.

Sep 20: Installed Collection Management, Support (CMST-N) at CINCPACFLT Pearl Harbor, HI.

Sep 21: Captain Thomas L. Morgan, USN reported on board as Deputy Commander, NAVINTCOM.

Sep 25: Separate Intelligence Oversight inspections were conducted at Task Force 168 European elements in May, the Naval Intelligence Automation Center in July, and Task Force 168 Pacific elements in September. All command elements were in compliance with program and annual training requirements.

Sep 26-Oct 7: NIC-112 and NIC-112A attended Efficiency Review Course for Analysts/Team Leaders at Navy Manpower

Engineering Center, Norfolk, VA in preparation for upcoming intelligence command review.

Sep 28: DIAC capability to access SEAWATCH II became operational.

Sep 29: Captain Michael W. Cramer reported on board as Deputy Commander for Operations.

Awarded contract for development of the Joint Maritime Information Element Support System (JMIE SS). This will bring a Test Bed development to an operational capability to support a consortium of federal agencies with a centralized database of information pertinent to drug interdiction, terrorism, arms traffic, and legitimate international commerce.

Activated new SPINTCOMM, NMITC Dam Neck, VA as STREAMLINER Remote on Model-40 terminals.

Sep 30: NAVINTCOM Change of Command and Retirement Ceremony held this date. Captain William H. Cracknell, USN was relieved by Captain Frederick W. Levin, USN. Captain Cracknell retired from the Navy.

LT Philip A. Jones, USN reported as Aide/Flag Secretary.

Development of JNIDS Project I, Text Interpretation Aid (TIA), asynchronous parser completed.

Oct-Dec: NIC-44/NIAC-74 provided assistance to local Systems Command and Laboratories and Centers in establishing SCI security programs, standard operating procedures within their SCI facilities and authorizing direct liaison with the various SSO Navy staff elements.

Oct: NIC-SCARS came on line following August tasking. Program will provide results of adjudication for all persons processed for SCI access and an automated data base of other security related actions.

NIC-41/NIAC-71 reviewed the technical evaluations/ proposal for Optical Scan with NIAC-04.

Received Conceptual Submission and began government review of design documents for the new NAVINTCOM building.

Congressional authorization and appropriations acts passed. NAVINTCOM budget request reduced as follows: (dollars in thousands)

RDT&E	-1539
Procurement	-4500
CIVPAY	-168
Oth O&M	-669
Total	-4098

NIC-21 personnel attended the GDIP FY90-94 Budget Review Hearings. NTIC, NAVOPINTCEN, Technical Sensors and Management Headquarters briefed. Those commands not briefing (NIAC ADP & TCOMM, TF-168) submitted written briefing materials.

Submitted Productivity Enhancement Initiative (PEI) to CNO (OP-921P3). NIAC PEI: Digital Terrain Elevation Data and Gazetteer for FULCRUM.

SAIC demonstrated new interim replacement program for HP computer system. Impressive, but slower than expected; recommended changes to be submitted to CNO (OP-920).

Submitted GDIPP macros and merges to CNO (OP-920) for use by entire Navy GDIP organization.

LCDR Bourgeois and Ms. Redfern conducted classes in the use of Word Perfect macros and merges in the GDIPP process for TF-168, JNIDS, NIAC ADP and TCOMM personnel.

SCI Conference Room in NIC-I was repainted and recarpeted. New furniture (except for conference table) was installed. Conference table still not delivered by year end.

Certified FY 1988 O&MN SH 1530 obligations of $128,667,000 program (99.976%). Manpower on board 30 Sep 1988 - USDH civilians: 1,341; military officers: 223; enlisted: 828. Certified FY 1988 O&MN SH 123A obligations of $1,551,000. OPN obligations totaled $54,348,000 in FY88 and $47,343,000 in FY87. Of the FY88 OPN obligations, $49,869,000 were FY88 dollars and $4,479 were FY87 dollars. Of the FY87 OPN obligations, $38,114,000 were FY87 dollars and $9,229,000 were FY86 dollars. Changing OPN fund citations to cover FY 1986 program with FY 1987 dollars and FY 1987 program with FY 1988 dollars was required in accordance with NAVCOMPT budget mark which cut $11.7 million from FY 1986 budget but did not intend to cut program. NAVCOMPT instructions were to execute approved programs, using available dollars, and when available dollars were exhausted to request relief from NAVCOMPT. Because OPN obligations lag far behind commitments, dollars historically are not exhausted by end of fiscal year for which appropriated.

began executing claimant funds f[redacted] first time in many years, year began under an appropriation, not a continuing resolution. First quarter allocation in O&MN SH 1530 was $40,175,000, amount requested in annual phasing plan. First quarter allocation of O&MN SH 123A was $528,000 (from requested $539,000). OPN allocation was $53,629,000.

Oct 6: Established full redundancy for critical SCI and GENSER LAN paths within NIC-I and NIC-II.

ISCM Gary R. Zalas, USN reported as Command Master Chief.

Oct 11: At the direction of Director of Naval Intelligence, elements of Task Force 168 were incorporated into a reconstituted NAVINTCOM Staff Operations Department (NIC-03) headed by the Deputy Commander for Operations (NIC-OOD).

Oct 13: Prepared and submitted to CNO, NAVINTCOM's Handicap/Disabled Veterans Accomplishment Report and Affirmative Action Plan.

Oct 17: As part of NIC-03/CTF-168 split, International Programs Office redesignated NIC-32 and operationally resubordinated to NIC-03 from CTF-168.

Oct 18-Oct 20: FRGN DNI visited DNI, COMNAVINTCOM, NIC-OOD/03, CTF-168, NAVTECHINTCEN and NAVOPINTCEN.

Oct 18: Circuit activated between JLD Naples and NSGA Naples supporting FOSIC Europe OBU connection to NSGA Naples STREAMLINER.

Oct 19: A scheduled triennial Command Inspection of Commander, Task Force 168 Headquarters and Command, Task Group 168.0 was delayed until January 1989 due to the combination of a change of command, a reorganization affecting the mission of CTF 168, and the absence of key personnel.

Oct 20: Completed tasks to connect Dahlgren to the I2 PDP 11/70 for access to specific DIA databases.

Oct 24: Development of JNIDS Project II tools to support Air-Launched Cruise Missile Analysis was completed and the system was delivered to SAC/544th SIW; commenced final year-long maintenance phase.

Oct 24-Oct 28: ISS/AF Phase One installed at FOSIF Rota.

Oct 26-: Spanish DNI visited DNI, COMNAVINTCOM, NIC-OOD/03,
Oct 27 CTF-168, NAVTECHINTCEN, NAVOPINTCEN, JSI, and DIRNSA.

French DNI visited DNI, COMNAVINTCOM, NIC-OOD/03, CTF-168, NAVTECHINTCEN, and NAVOPINTCEN.

Oct 27: Portuguese DNI visited DNI, COMNAVINTCOM, NIC-OOD/03, CTF-168, NAVTECHINTCEN, and NAVOPINTCEN.

NIC-32 hosted the Post-SACLANT Maritime Intelligence Conference Dinner at Fort McNair.

Oct 30: Received 200 Zenith 248 PC's for command installation.

Oct 31-: JMSDF DNI visited VCNO, DNI, DIRNSA, DDIA, COMNAVINTCOM,
Nov 3 NIC-OOD/03, CTF-168, NAVTECHINTCEN, and NAVOPINTCEN.

Nov: Amended NIAC 74's primary mission to that of contractor SCI security support SCI contracts management and control of all contractor SCI billets. This was accomplished by eliminating the long dorment SILO functions, duplicative intelligence library functions, and other nonrelevant duties.

Two positions in NIC-44/NIAC-74 were transferred back to the Navy Supply Systems Command.

Continued coordination of design input for new Suitland site toward 35% design completion scheduled for March 1989.

NIC-02 provided comments on GDIP staff study pinpointing the extent of Navy GDIP resources committed to narcotics interdiction. The study indicated that Navy was devoting less resources that the GDIP staff estimated.

LCDR Bourgeois and Ms. Redfern conducted classes in the use of Word Perfect macros and merges in the GDIPP process and the use of a LOTUS spreadsheet in preparation of CBJB displays for OP-920 analysts.

Submitted initiatives to OP-920 to support the "Boren's Billions" INF monitoring effort. Initiatives submitted included: two initiatives to process and analyze new type of data, an INF monitoring workstation, and an addition to the Naval Intelligence Center to house the expanded analytical effort resulting from INF monitoring.

Received full year's authorization for FY 1989 O&MN SH 1530, reflecting CNO reserve reduction of $1,653,000 and a congressional reduction of $1,648,000. FY 1989

program amount was $133,917,000. [redacted] $130,616,000. Authorization did not include $800,000 for NFIP enhancement (for NAVOPINTCEN), added to budget request by Senate Appropriations Committee. OP-920, in directing claimant distribution of GDIP appropriation by NAVCOMPT, did not include this money for NAVINTCOM. Omission had not been corrected by year end. Similar sponsor distribution resulted in shortfall of $10,000 below approved level.

Established COMNAVINTCOM O&MN SH 1530 reserve of $2,000,000 and distributed $185,000 of this reserve as follows: $100,000 to NTIC for security guards; $50,000 to NTIC for the Command Recruiting Program; $50,000 to NAVOPINTCEN for Clark Leininger support (with Coast Guard at Long Beach); $20,000 restored to NAVOPINTCEN for adjustment to CNO reserve; $10,000 to absorb for claimant adjustment; $10,000 to absorb sponsor omission cited above.

Nov 1-6: NIC-13 participated in the Naval Reserve Intelligence Conference in Dallas, TX. All attendees were briefed on NIC-13 duties and responsibilities and conducted a gaining command seminar.

Nov 6-: Nov 22 NIC-03 and DNI travelled to Hawaii, Japan, South Korea, and Philippines in support of U. S. Navy bilateral intelligence programs and other operational issues.

Nov 8: Initiated disconnection and removal of NARC communications system, which was obsolete with the implementation NIFE.

Nov 8-9: NIC-01 and NIC-12 attended the Intelligence Schools Commanders' Conference and General Intelligence Training Council Meeting at Fleet Intelligence Training Center, Pacific receiving an overview on training held and upcoming initiatives.

Nov 10: Completed a formal NIAFE security test and evaluation. Received interim approval to operate from DIA.

Issued data call to all SPINTCOMMs for updating CT NEC's to ensure that all SPINTCOMM CT personnel are properly classified, trained and made available for schools.

Nov 15: Reactivated NOCCEN, Guam in the same SPINTCOMM space after complete refurbishment of space and upgrading all equipment, installing FIREBOATS and upgrading circuit line speed.

NOV 18: Reactivated CG MCAGCC, 29 Palms, CA SPINTCOMM into new MILCON spaces/building with all new equipment, FIREBOATS and upgraded line speed.

Successfully completed FIST FLTSA [redacted] NESEADET St. Inigoes and FICEURLANT.

Nov 18-Nov 19: NIC-13 attended the FICPAC Reserve Support Coordination Meeting to plan and implement expanded Reserve support in all current and future FICPAC areas.

Nov 20: Initiated DODIIS mandated I2 to DSNET3 transition activities.

Nov 22: Sponsored Thanksgiving baskets for over 39 families as part of the Command Community Outreach/Relations Program.

Nov 27-9 Dec: NIC-112 attended the Shipboard Intelligence Officer Course at the Navy and Marine Corps Intelligence Training Center, Dam Neck, VA. Critique of course indicates well presented core material and essential to the curriculum.

Nov 29-Dec 1: Mr. Antoine, NIC-00E, attended the CNO, EEO Counsel meeting at Naval Telecommunications Command. Counsel meets semiannually to review recent EEO and personnel management policy changes and their impact. The counsel submits recommendations to the CNO for implementation and/or resolution of problem(s) Navy-wide.

Dec: Visit to CIA by NIC-41/NIAC-71 and NIAC-04 to identify a request for program change for automatic data entry into "4C" database.

Agreements reached to incorporate full component of USCG Intelligence Coordination Center into building planning.

LCDRs Cox and Chapman presented a financial management briefing at the Mid-Career Officers course at NMITC, Dam Neck, VA.

Distributed $674 thousand of COMNAVINTCOM reserve as follows:

NTIC - $150 thousand for Joint Intelligence Research Office
NICHQ - $ 20 thousand for Employee Assistance Program
$154 thousand for Stoney Beach Support to DIA
NIAC - $310 thousand for OBU maintenance
40 thousand for NIC-03 Laser Network

Balance remaining in reserve at end year: $1,131,000. This amount is flagged for ADP/Comms facility planning support contract ($547,000) and $350,000 for a security study contract ($350,000), both for the new building; $125,000 for Plot Sheet Connectivity. Carrying $109,000 balance (unmarked) into calendar year 1989.

Submitted Final CBJB to CNO (OP-920). FY96 resources included:

	$000
RDT&E	85,128
MILCON	0
OPN	43,259
O&MN	150,260
MILPAY	45,761
TOA	$324,768
Billets	2,709

Submitted FY89 Anti-drug initiatives to DNI (OP-920):

- JNIDS: JNIDS Anti-Drug Technology Migration @ $1000k
- NOIC: Drug Interdiction Support @ $2400k
- NIAC: Improved Analytical Support to Drug Interdiction @ $2400k
- NIAC: OSIS Site Improvements @ $2100k
- TF-168: HUMINT Drug Interdiction Program @ $1960k
- TF-168: FLEETS Drug Interdiction Program @ $3500k

Dec 1: Technical Assistance Guide developed and installed on GENSER and SCI computers.

Dec 2: DIA's Imagery Dissemination on Optical Disk System (IIR) was installed at NAVOPINTCEN.

Dec 3: MVA/XA 2.2 placed into production on the GENSER IBM 3083EX.

Dec 9: NAVINTCOM Department Heads and Special Assistants were briefed by Navy Manpower Engineering Center regarding efficiency review and upcoming tasking to accomplish the review.

MVS/XA 2.2 placed into production on the SCI IBM 3083JX.

Dec 10: OP-12 briefed NIC-00 regarding efficiency review process.

Completed Phase I of the SUN Workstation installations to support SEAWATCH III.

Dec 12: Developed and promulgated procedures for handling and labeling ADP removable storage media.

Dec 14: Project II SIMPACT Board, which provided [redacted] interface, passed SAC CSP accreditation testing.

Dec 15: NIC-13 resolved CNO issue of unexecutable intelligence specialist 3901/3910 Navy Enlisted Classification Codes for Selective Reserves. A study conducted found that the Naval Reserve Intelligence Program exceeds the 75% billet requirement, thus removing the NECs from the unattainable list.

SECDEF signed OSD directive granting implementation authority. Authority to utilize flexibilities of CIPMS is pending approval of the OSD policy manual.

Dec 15-Dec 16: Sponsored OBU Fleet Project Team meeting. Prioritized and categorized fleet generated NCCS Change Requests for submission to contractor.

Dec 20: Removed NARC communications hardware.

Chaired a NWTDB Fleet Comments Working Group meeting. Reviewed comments from the fleet on the January 1988 edition of the NWTDB User's Guide.

Dec 21: The Inspector General staff investigated two Hotline (Fraud, Waste, and Abuse of resources) cases, providing assistance to NAVINSGEN in one case; conducted two organizational reviews during 1988.

Dec 22: Sponsored "Gifts for Needy Children" for over 100 needy children as part of the Command Community Outreach/ Relations Program.

Dec 27: Initiated WALBURN cryptographic equipment requirements validation request to CNO. WALBURN equipment, KG-95R and KG-194, is required for T1 and T3 circuitry upgrades/new starts for red multiplexing trunks to support video/voice/data/facsimile requirements.

Dec 30: A total of 153 Freedom of Information Act and 11 Privacy Act requests were received during 1988, which required 200 separate actions.

Dec 31: Development of Project I tools for SSBN Analysis completed following successful interfaces with DSAT/SCP database and communications lines.
